Art Unit: 3764

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-2, 6, 8-17, 19-23 and 27-34 rejected under 35 U.S.C. 103(a) as being unpatentable over Ciolino et al in view of Swann.

In regard to the claims Ciolino discloses a device comprising a conformable base and removable elastic resistance arms (14) having removable handles (17).

Ciolino however does not disclose his device as including resistance arms, which have multiple levels of resistance of various strengths.

Swann however teaches the usage of multiple arm members of various strengths positioned at various positions around an exercising mat. The resistance members 26 being disclosed as having differing strengths.

Given the above teachings of Swann the examiner notes that it would have been obvious to one of ordinary skill in the art to manufacture the arm members (14) of Ciolino et al of various strengths so as to provide the device of Ciolino et al with the capability to vary the amount of tension applied to the limbs of a user.

Ciolino et al discloses his device as being inflatable his resistance arms as being removable his handles as being removable, the device as including vinyl.

In regard to claim 15, the examiner notes that the handles (17) are being considered also as fixtures which will accept at least one of a users feet see figs. 8.

Art Unit: 3764

In regard to claim 22, the examiner notes that it would have been obvious to one of ordinary skill in the art at least four exercising arms on the device of Ciolino for the purpose of exercising the arms and legs of a user simultaneously in view of the at least four members of Swann.

In regard to claims 23 and 27-34 the examiner considers the method claims as obvious in view of the combined disclosure of Ciolino et al in view of Swann.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 6, 7 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Orcutt.

Orcutt in its broadest interpretation discloses an exercising device comprising a conformable base and, a plurality of arms capable of providing multiple levels of resistance for each training exercise. See col. 3 lines 18-24.

In regard to claim 7, Orcutt teaches length adjustability.

In regard to claim 18, note the shape of Orcutt.

Applicant's arguments with respect to claims 1-32 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3764

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 22, 32 and 34 have not been renumbered applicant is required to do so.

Any inquiry concerning this communication should be directed to Jerome Donnelly at telephone number (571) 272-4975.
